This catalogue shows a selection of our masks in their most popular designs. Since they are 100% handmade, each piece of the same style can have some minor variations of design and colours. Nevertheless, we always try to reproduce what it is shown in the picture as precisely as possible.

We always are available to:

- provide any amount of masks of the same mold and style
- customize the style of the masks, reproducing a decoration proposed by our clients
- include company logos and colors in the decoration
- add stick and/or feathers - when possible - to the masks

All the masks are signed by the artisan who decorated them and are all guaranteed to be completely hand-made.

Traditional Venetian masks are on sale with a leaflet describing the history of the character written in English, French, German and Italian, and with a colour print.
